Portfolio: samkuttenkuler.com

Summary

Adamant pursuer and lover of programming. A relentless problem solver who is constantly learning. I specialize in building responsive and engaging user experiences that leave a lasting impression. Detailed oriented programmer with big picture mindset. Four years experience with a variety of technologies, platforms, and API's with consistent delivery.

Technical Skills

Languages: Python, JavaScript, Django, React, HTML5, CSS3, jQuery, Node, MySQL, PostgreSQL, REST, PHP, C++, Git, Redux, TypeScript, Jest, PyTorch, MongoDB, Docker, Jupyter Notebooks, Firebase, OAuth, Linux, Swift, AWS(EC2, S3, VPC, SQS, Lambda, EBS, ELB, Dynamo, IAM)

Projects

Falcon Heavy | github.com/skuttenkuler/SpaceX | immense-beyond-39985.herokuapp.com

- Users learn about and compare all versions of the Falcon Rocket developed by Elon Musks SpaceX project.

- Planned, built wire frame, researched, developed, tested, and deployed.

- TypeScript, React, Redux, React Router, Node, Express, MongoDB, SpaceX API, Firebase

Payrolls and Picks | github.com/skuttenkuler/Payrolls-And-Picks | payrollsandpicks.com

- Website with past, present, and future payroll ledger for NBA teams and players with engaging user experience.

- Planned, consulted, built wire frame, modeled database, researched, developed, and testing.

- React, React Router, Python, Django, REST, CSS, PyTorch

Star Social | github.com/skuttenkuler/StarSocial | samkuttenk2.pythonanywhere.com

- Join the social network for all things space related.

- Planned, built wire frame, researched, developed, tested, and deployed.

- Django, Python, HTML5, CSS, MySQL

Experience

Lead Full Stack Engineer - 2020

Tobi Tobin - Malibu, CA

Redesign and develop brand website with international market. Improve backend admin interface. Assist in rebranding products and marketing campaigns. Hold weekly meetings and present progress to CEO. Integration of 3rd party API's and database management.

Full Stack Engineer - 2020

The Continuance Foundation - Los Angeles, CA

Consistently coordinate with client throughout development. Develop Swift mobile application with Firebase authentication and user data storage.

Full Stack Developer - 2019

Benton Ray - Los Angeles, CA

Consistently coordinate with client throughout development. Successful implementation of third party API's and AWS services. On time product delivery and client complete satisfaction.

Full Stack Mobile Developer - 2019

Ryan Shadow - Nashville, TN

Consistently coordinate with client throughout development. Strategize, research, learn, and develop React Native Android app. On time product delivery and client complete satisfaction.

Education

Bootcamp Certificate: University of California Berkeley, Berkeley, CA

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

Machine Learning Certificate: Stanford University, Stanford, CA

An 11-week intensive program focused on understanding and implementing machine learning concepts such as linear and logistic regression, Neural Networks, Unsupervised and Supervised Learning, Photo OCR, and Anomaly Detection in Python and Matlab.

Bachelor's Degree: Middle Tennessee State University, Murfreesboro, TN

Liberal Studies with emphasis in Science
